

QWizardPage

```
classDiagram
    class QWizardPage
    class GpgFrontend_UI_ChoosePage["GpgFrontend::UI::ChoosePage"]
    GpgFrontend_UI_ChoosePage --|> QWizardPage
```

The diagram shows a class hierarchy. At the top is a class box for 'QWizardPage' with three empty compartments. Below it is a class box for 'GpgFrontend::UI::ChoosePage' with three compartments containing a protected attribute, a public method, and a private method. A blue arrow with an open triangle head points from the 'GpgFrontend::UI::ChoosePage' box up to the 'QWizardPage' box, indicating inheritance.

GpgFrontend::UI::ChoosePage
